

## HEALTH INSURANCE:

For those students who do not have health insurance there are several options available.

1. **Healthy Families:** This program allows complete medical, dental and vision coverage for children up to age 19. Eligibility for the program is determined by family income and size, as well as the age of the child. A short, easy mail-in application is available in 11 languages. To get more information, call this toll-free number: 1-888-747-1222.
2. **Pupil Insurance made available through Stockton Unified School District:** The school district has available applications for medical service or hospital service, or both. The corporations offering this coverage to students have various plans to help defray the cost of accidents, illness, etc. Please contact your student's school for more information.
